

A decorative graphic consisting of two black sigma symbols ( $\Sigma$ ) positioned in the upper right quadrant of the slide, above the title bar.

# Six Sigma Overview

## Management Consulting

- **KPA** is an international management consulting firm with offices in Israel and strategic partners in the US, Spain, Belgium, France and Central Europe. Formed in 1990 by Professor Ron Kenett as a partnership, the firm incorporated in 1994.
- The **KPA** staff consists of specialized consultants with expertise in strategic planning, market research, industrial statistics, quality and risk management, business development and human resource management. **KPA** is currently involved in the strategic planning of medium and large companies, in international market research and customer surveys, establishing quality systems and Six Sigma initiatives, organizational development, risk management and change management consulting.

# *The KPA Vision and Mission Statement*

## **Our Mission**

*“To provide our customers with the expertise required to formulate strategies, concepts and breakthrough business processes that will turn their organizations into leaders in their field.”*

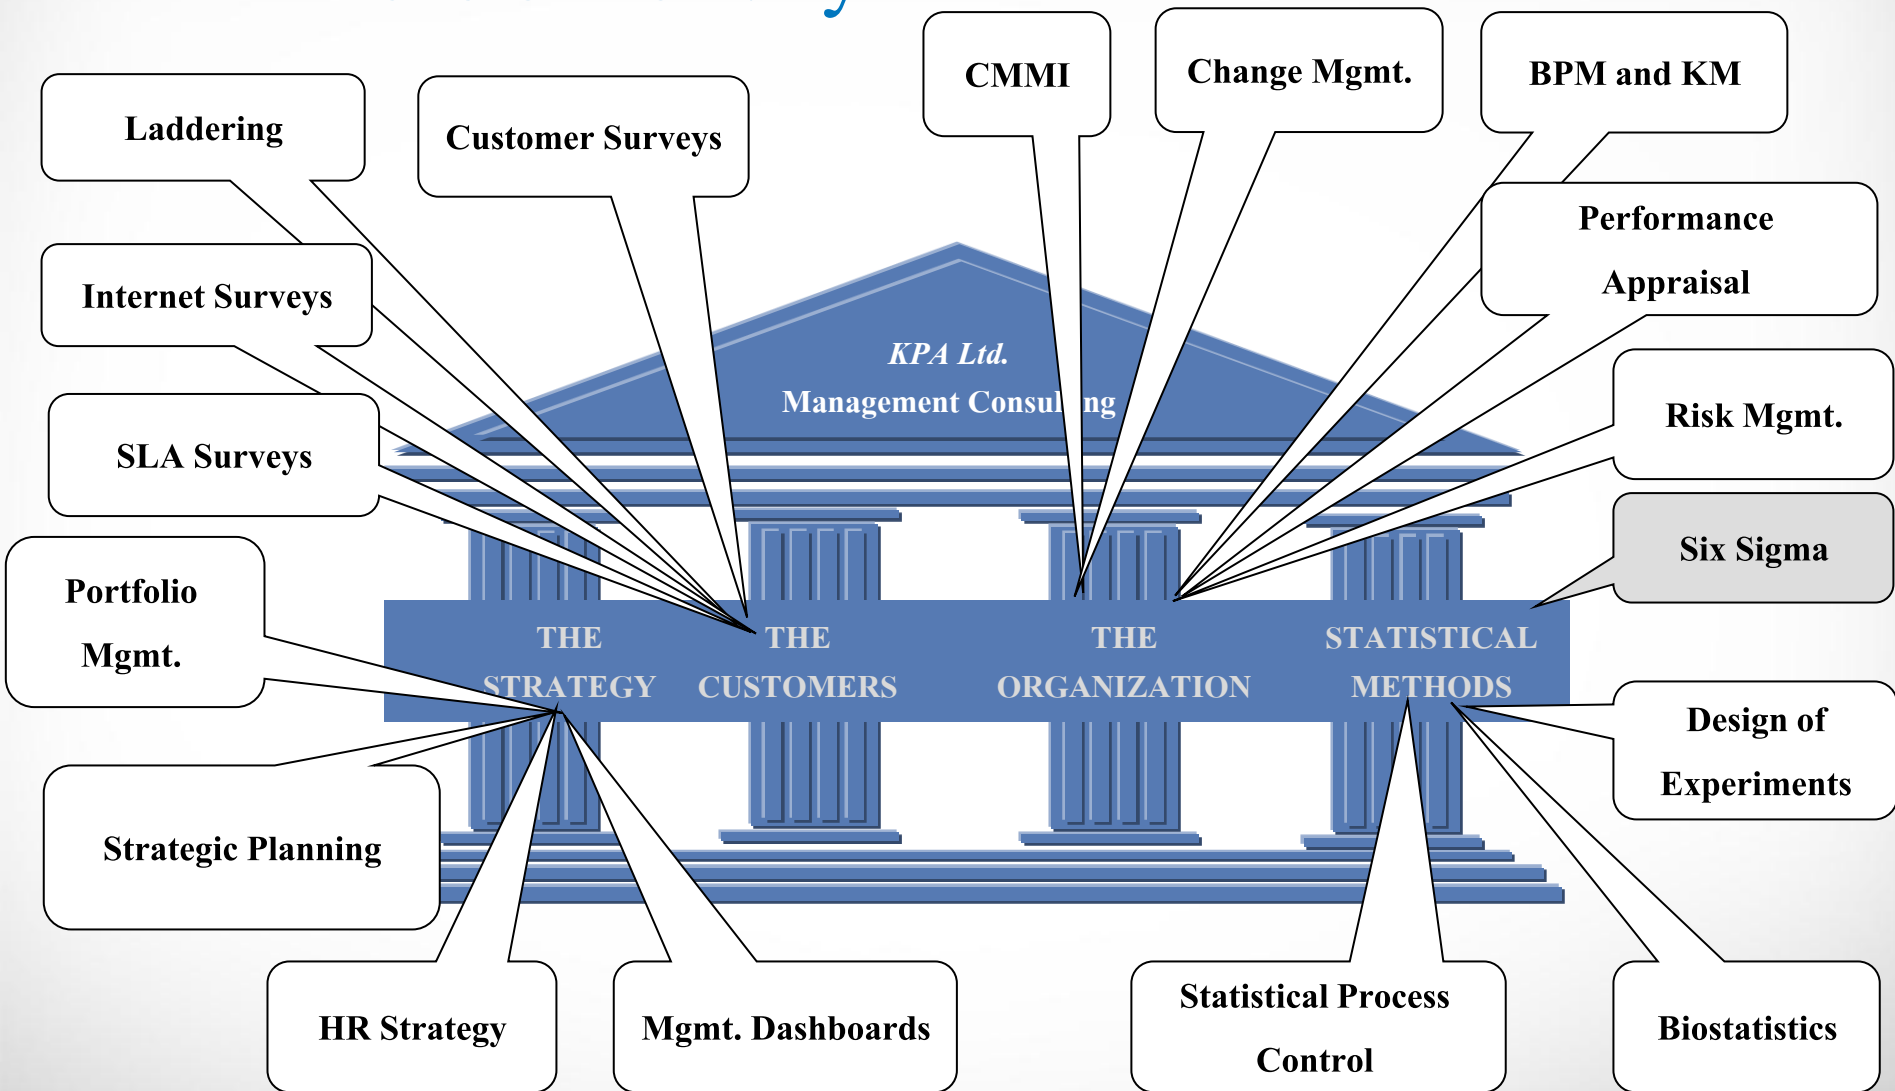

## **Our Vision**

*“To be known as a center of excellence in modern management methodologies and as a source of research and training in our field.”*

# *KPA* areas of activity

- **THE STRATEGY**
- **THE CUSTOMERS**
- **THE ORGANIZATION**
- **STATISTICAL METHODS**

# KPA areas of activity

# *KPA* products and services

- Strategic Planning, Change Management, Six Sigma initiatives, joint ventures and M&A facilitation
- Market Research and Voice of the Customer Surveys
- Organizational Development, Appraisal Systems and Voice of the Workforce Surveys
- Statistical Consulting, Data Mining, Risk Management, Industrial Statistics, Biostatistics
- **Six Sigma training and consulting**

# KPA clients' industrial areas

- Telecommunications
- Software
- Banking
- Plastics
- Chemicals
- Pharmaceuticals
- Food & Beverage
- Electronics
- Cellular Services
- Health Care
- Education
- Energy
- Transportation

# *KPA* partial list of clients

- The Israel Electricity Corporation, utility
- The Open University, education
- hp Indigo, the electronic printing division of hp
- Cellcom, a leading Israeli cellular service provider
- ECI, telecom supplier
- Perrigo, pharmaceuticals
- Eden Springs, home office delivery
- Cisco, network management software
- Amdocs, billing systems
- Dead Sea Bromine Group, chemicals
- Bank Leumi, financial services
- Rafael, electronics

# Why Six Sigma ?

*“At Motorola we use statistical methods daily throughout all of our disciplines to synthesize an abundance of data to derive concrete actions....*

*How has the use of statistical methods within Motorola Six Sigma initiative, across disciplines, contributed to our growth? Over the past decade we have reduced in-process defects by over 300 fold, which has resulted in a cumulative manufacturing cost savings of over 11 billion dollars”\*.*

Robert W. Galvin

Chairman of the Executive Committee  
Motorola, Inc.

# The Basketball Analogy (1/2)

**The Spec**

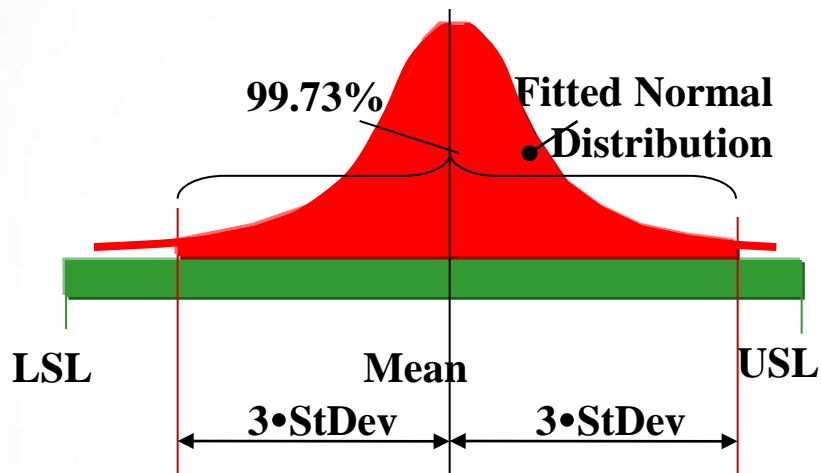

**The Process**

*How do we Perform?*

# The Basketball Analogy (2/2)

$$C_p = \frac{USL - LSL}{6 \cdot StDev}$$

$$C_{pk} = \frac{\text{Min} \{ \text{Mean} - LSL, USL - \text{Mean} \}}{3 \cdot StDev}$$

# Performance Assessment

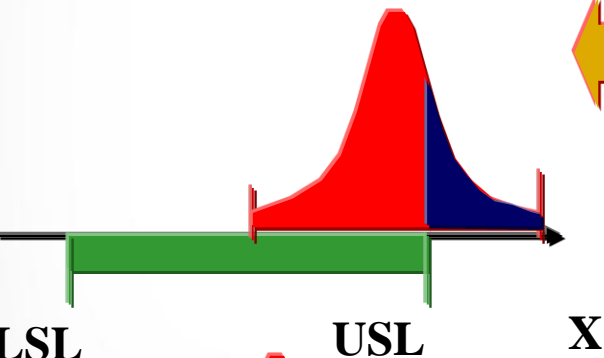

# Six Sigma Indicators (1/2)

**Rework**

**There is no Potential Capability**

$C_p < 1.0, C_{pk} < 1.0$

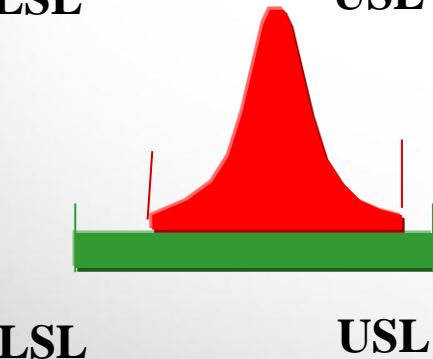

**Waste**

**There is Potential Capability**

**However**

**There is no Actual Capability**

$C_p > 1.0, C_{pk} < 1.0$

**Performance**

**There is Actual Capability**

$C_p > 1.0, C_{pk} > 1.0$

# Six Sigma Indicators (2/2)

**$C_p$ ,  $C_{pk}$ , Defects Per Million and Sigma Level**

<b><math>C_p</math></b>	<b>PPM</b>	<b><math>C_{pk}</math></b>	<b>PPM</b>	<b>Sigma Level</b>
0.67	50,000	0.17	308,770	2
1	2,700	0.5	66,811	3
1.33	63	0.83	6,210	4
2	0.002	1.5	3.4	6

**Where are your critical processes?**

# The Juran Trilogy: Planning, Improvement and Control\*

# Design for Six Sigma

**Scoping**  
Initial  
assessment

**Screening**  
Fractional  
designs

**Optimizing**  
Response  
surfaces

**Robustness**

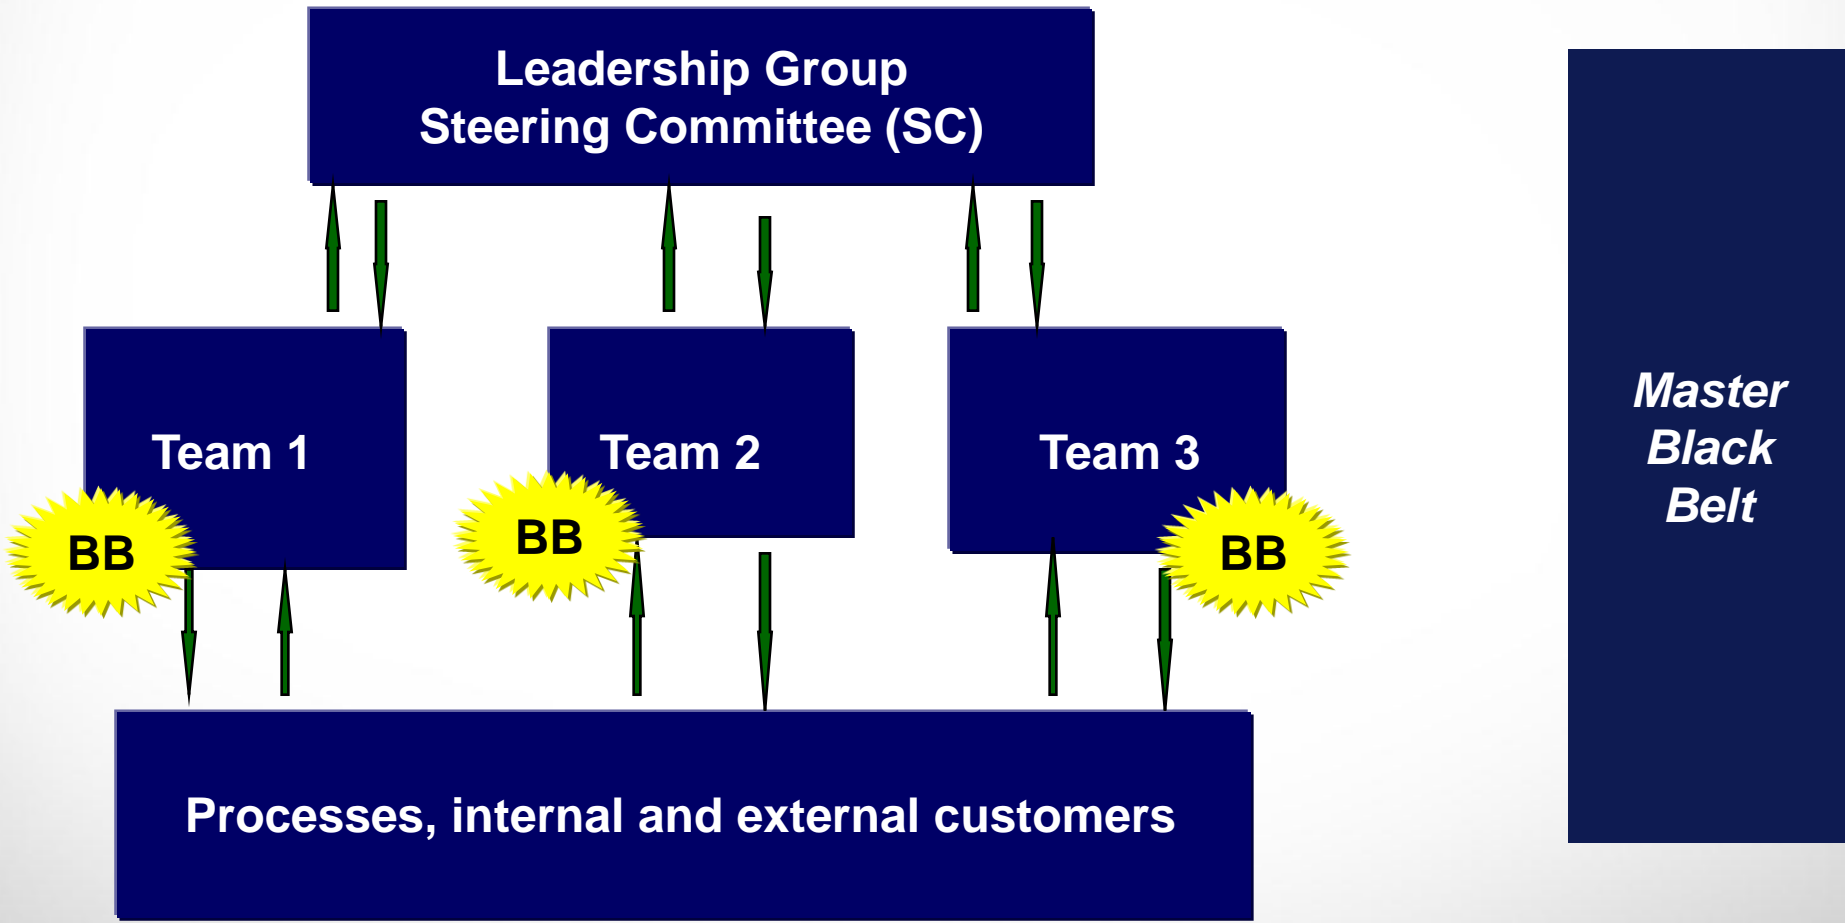

**Robust  
designs**

**Process  
Confidence**

**Process knowledge**

# The Organizational Structure:

## Supporting Six Sigma implementation

# Classification of projects

Degree of Difficulty

**Sweet Fruit**

4-6 months

**DMAIC**

**Bulk of Fruit**

3-5 months

**Low Hanging Fruit**

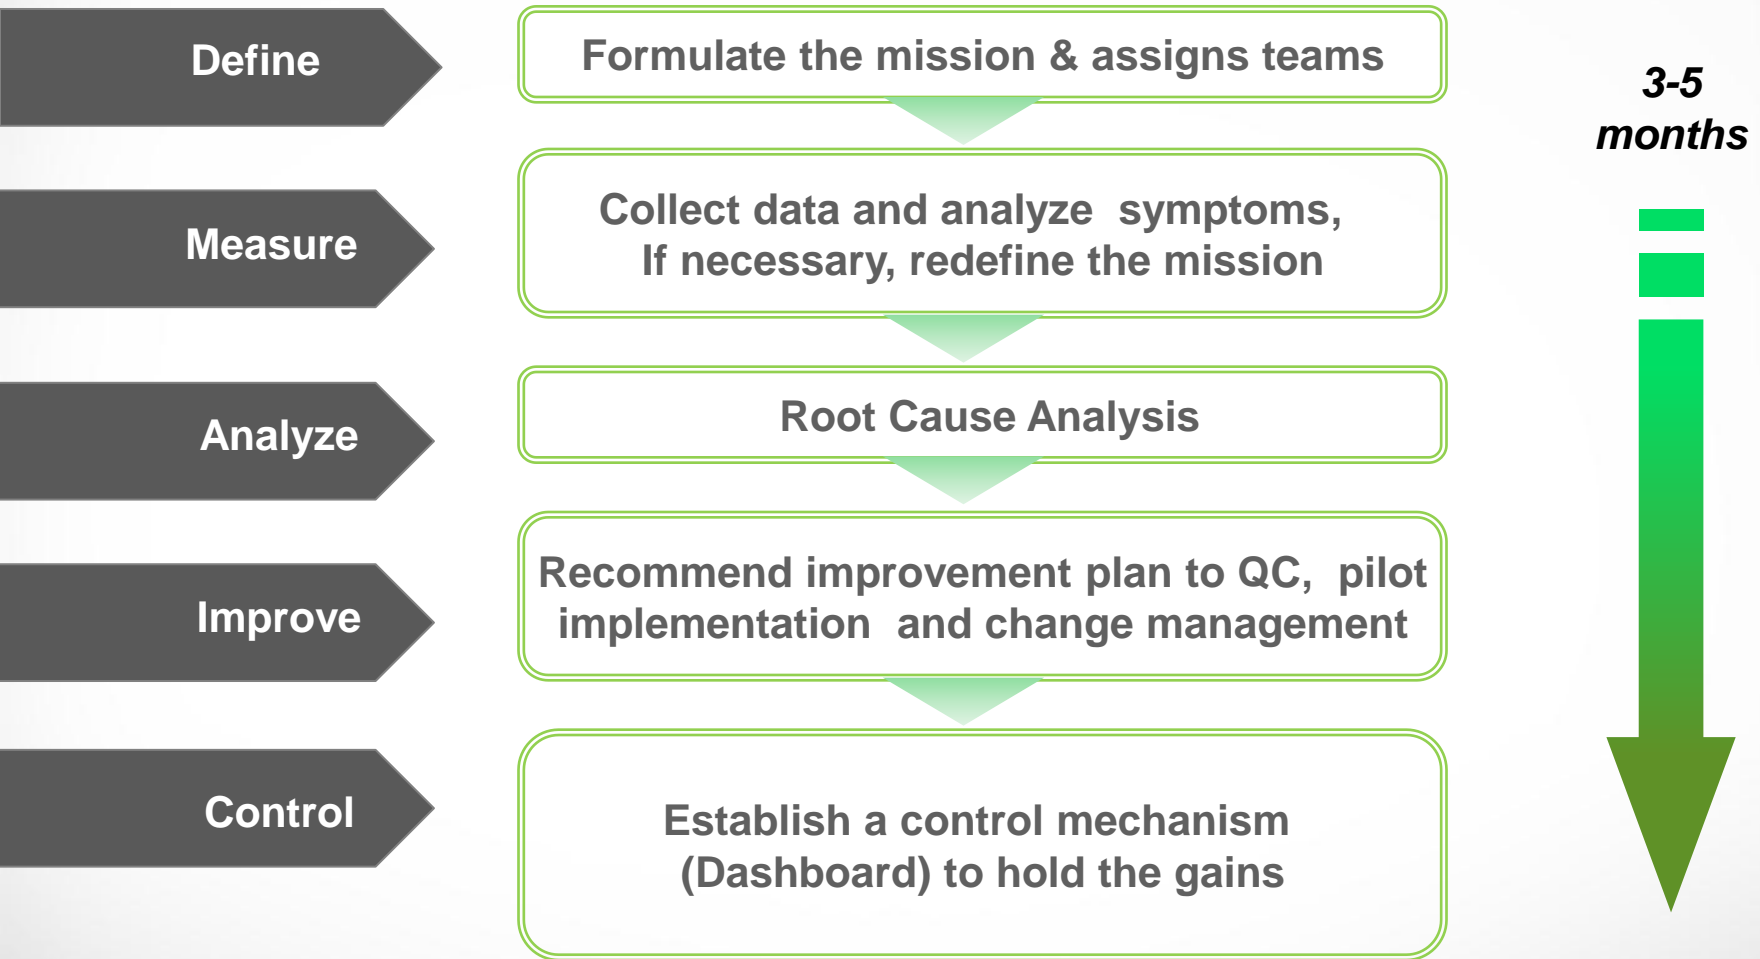

2-3 days

**COLPI**

**Low Hanging Fruit**

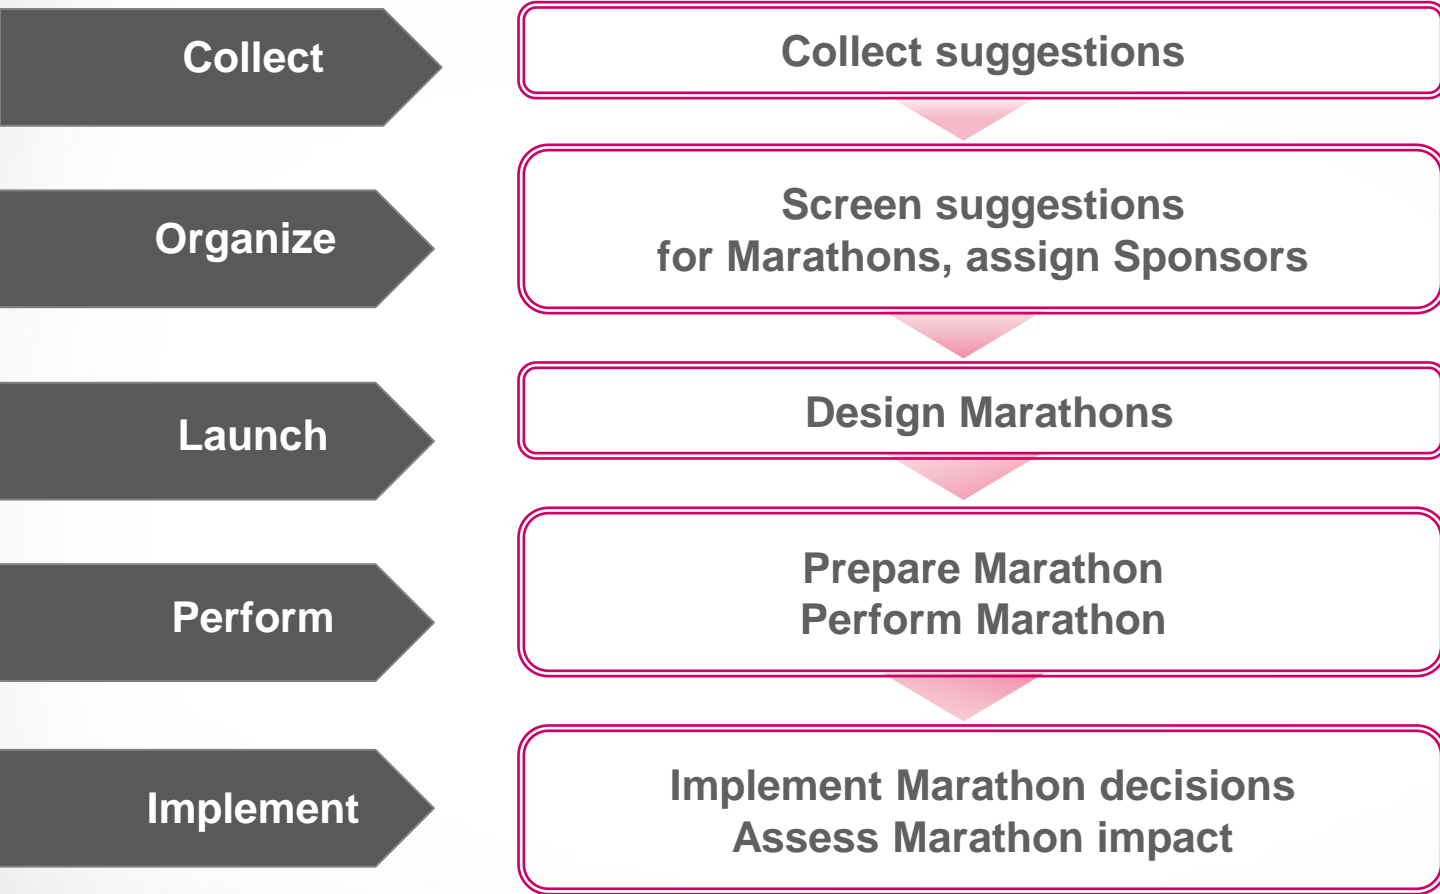

Just do it

# Six Sigma Methodology

# DMAIC

# Marathon Methodology

**2-3 days**

# COLPI

# Matrix Criteria Ranking

- **List criteria to assess projects – brainstorming, eg**
  - Impact on customer satisfaction
  - Required investment
  - Ability to implement etc.
- **Select top 3 – voting**
- **Voters place their votes for each criterion**
- **Add up votes for each project**
  - Scale by 1 (low), 2 (medium) or 3 (high)
- **Select projects**

# Project Prioritization

## Project Evaluation Matrix

H = High M = Medium L = Low

Topic	Impact			Required investment			Ability to implement			Score
	L	M	H	L	M	H	L	M	H	
High priority	0	0	8	8	0	0	0	0	8	100
Low priority	8	0	0	0	0	8	8	0	0	0
										-50

# Black Belt Training and Six Sigma Roadmap

## Tracking Tools

### Part 1

- Introduction to Six Sigma
- MINITAB Part 1- The MINITAB Environment
- MINITAB Part 2- Graphing Data
- Exploratory data analysis

### Part 2

- Basic Statistical Inference
- MINITAB Part 4- Analyzing Data
- Gage Repeatability and Reproducibility
- Process Mapping
- Failure Modes and Effect Analysis- FMEA

# Black Belt Training and Six Sigma Roadmap

## Tracking Tools

### Part 3

- Statistical Process Control
- MINITAB Part 5 – Assessing Quality
- Cause and Effect Analysis
- Cost models

### Part 4

- Improvement Projects Prioritization
- Design of Experiments
- MINITAB Part 6- Designing Experiments
- THE ALUMINIUM WHEELS CASE

### Part 5

- Risk Management
- After Action Review (AAR)
- Working as a team
- Basics of Lean Manufacturing

# Training

May 30<sup>th</sup>, 2011

R&D RA QA  
Plant PIP  
PERRIGO

KPA  
Insights through analytics

**Black Belt Certification**

is hereby granted to:

***Dr. Israel Israeli***

*This certification is presented for successful completion of all requirements, acknowledging you as having the technical expertise, interpersonal skills, and application experience necessary to effectively lead Six Sigma projects*

Nurit Kalman  
VP & COO, PIP

Esther Urkin  
VP Global R& Quality Operations

Ron Kenett, Ph.D  
Chairman and CEO, KPA Ltd

May 30<sup>th</sup>, 2011

R&D RA QA  
Plant PIP  
PERRIGO

KPA  
Insights through analytics

**Green Belt Certification**

is hereby granted to:

***Israel Israeli***

*This certification is presented for successful completion of 25 hours of training in the KPA Six Sigma Green Belt Workshop and hands on application of these techniques to specific problems and products within the Perrigo group*

Nurit Kalman  
VP & COO, PIP

Esther Urkin  
VP Global R& Quality Operations

Ron Kenett, Ph.D  
Chairman and CEO, KPA Ltd

**Thank You!**
